

include/arch/x86/interrupt.h

```
graph BT; A[kernel/arch/x86/interrupt.c] --> B[include/arch/x86/interrupt.h]; C[kernel/arch/x86/mm/init_mem.c] --> B;
```

The diagram illustrates a header file inclusion relationship. At the top, a grey rectangular box contains the text 'include/arch/x86/interrupt.h'. Below this box, there are two white rectangular boxes. The left box contains 'kernel/arch/x86/interrupt.c' and the right box contains 'kernel/arch/x86/mm/init_mem.c'. Two blue arrows originate from the top-right corner of the left box and the top-left corner of the right box, both pointing towards the bottom edge of the top box, indicating that both source files include the header file.

kernel/arch/x86/interrupt.c

kernel/arch/x86/mm/init_mem.c
